Foreword

This is the annual report of the Sjoa Foundation For Individual Insurance Claims (SIVS) for the year 2014.

Although the figures are cold statistics we are constantly aware of the underlying tragedy.

The many personal reactions we receive on our decisions confirm the special task of our foundation.

The most important news of 2014 was that we will continue our activities for another period of five years. During that period we will take new requests into consideration. In view of the number of applications we receive, our foundation clearly meets a need within the Jewish community.

Talks with the insurance companies show that they greatly appreciate our work. They don't want to be put into a position that an appeal to a limitation period can be made. During the years of our existence we have acquired much know-how that has been lost within the insurance companies. Our research also revealed new information about a number of policies.

Because of this a number of settled requests again had to be taken into consideration. The number of applications remained stable this year but publication about the extension of the deadline will undoubtedly lead to an increase in 2015.

The year started with the unravelling of the funds of SIVS. In the agreement of 1999 between the Dutch Central Jewish Board (CJO) and the Dutch Association of Insurers (DAI) it was arranged that after the end of the 10-year period for which the foundation had been created the remaining funds of the dissolved foundation would be divided; two thirds would go to the Jewish community and one third would go to the Association of Insurers.

CJO and DAI decided that SIVS will continue to exist for the time being but that the part of the balance intended for the Jewish community would be paid out. Of this part seventy-four percent was paid to the *Stichting Collectieve Maror-Gelden Nederland* (COM) and twenty-six percent to the *Stichting Collectieve Marorgelden Israël* (SCMI). CJO and DAI also agreed that from the amount to be divided they would each make a sum of € 10.000 available for the publication of a book about the Jewish war assets. The part of the insurers remains part of the capital of SIVS and is available for payments of unpaid policies. With this balance we expect to be able to continue and complete our mission.

The reactions show that creating as much clarity as possible concerning World War II policies still satisfies the need of many.

Therefore we are highly motivated to continue our mission for another five years.

Ernst J. Numann
chairman SIVS

Key figures SIVS 2014

Applications/Payments	TREND	2011	2012	2013	2014	Total 2000-2014
Applications		445	426	430	440	19.694
Settled		619	380	537	391	19.144
Paid policies		82	65	53	76	1.753
Payments		690	380	289	485	11.122
Paid out sums €		308.970	288.275	217.410	232.165	7.552.138

1. Foundation

The *Stichting Individuele Verzekeringsaanspraken Sjoa* (Sjoa Foundation For Individual Insurance Claims, also called SIVS, hereinafter ‘the Sjoa Foundation’) originated from the agreement concluded by the Dutch Association of Insurers (DAI) and the Dutch Central Jewish Board (CJO) in November 1999.

The Sjoa Foundation was set up in order to assess and honour applications for payment of Jewish life insurance policies that had not been paid out after the Second World War. The objective is to find out whether people are entitled to a payment. A sum of NLG 20 million (€ 9 million) was reserved for this purpose.

The Sjoa Foundation would, unless the parties agreed otherwise, handle applications until January 1, 2010. In view of the developments in the United States (see chapter 8), the DAI had already undertaken in 2008 that applications would still be handled in the Netherlands after 2009. In 2009, the CJO and DAI decided that applications can be filed until January 1, 2015. There are two important considerations for this. First the international opinion that the research concerning Jewish war claims should continue. On the Holocaust Era Assets Conference held in June 2009 in Prague, a call was done to insurers worldwide to continue processing individual claims. The second reason is that there is still a great need for information about Dutch life insurance policies from World War II. Since these two considerations are still valid it is decided to continue our activities until for another term of five years.

The Sjoa Foundation has been handling applications since 2000. At that time, a list of approximately 750 policyholders/insured persons of unclaimed policies was published on the Internet. 1,369 names were added to this list at the end of 2004. After that several hundred other names were added as the result of our research. Names of policyholders/insured persons of policies that were fully paid out by our Foundation are removed from the list. By end 2014, the list was down to 2,000 names.

The Sjoa Foundation secretariat researches traceable policies and reports the results to the Board of Directors, which then makes the decisions to allocate payouts to rightful claimants.

In addition, if policy details are unavailable, the Sjoa Foundation sends lists of names to all relevant Dutch life insurance companies associated with the DAI, which then go through their records, as far as they are still available, and report their findings to the Sjoa Foundation.

The first year was characterized by a great number of submitted applications, particularly after the first Internet list was published. At the time, the secretariat was not prepared for this volume of applications. In the subsequent years the secretariat was expanded and restructured. Staff increased six fold and clear procedures were introduced to deal with the applications.

Between 2001 and 2004 there were a consistently high number of applications, well over 2000 a year. It was only in 2004/2005 that the number of applications started to drop to an average of 1,500.

The first year in which more applications were dealt with than were received was 2004. Initially more priority had been given to the most potentially successful applications.

The publication of new names on the internet in December 2004 led to an increase in the number of applications related to the list in 2005. The last ICHEIC applications were received in 2006. (See chapter 8)

From 2006-2008, the number of new applications dropped considerably to a level of 400-500 per year.

In 2009 the number of applications doubled. This was mainly caused by publicity concerning our Foundation due to the extension of the application deadline to 2015. The effect of this was also noticeable in 2010. In 2011-2014 the number of applications has returned to the 2006-2008 level.

In the agreement of 1999 between CJO and DAI it was arranged that the remaining funds of the dissolved foundation would be divided; two thirds would go to the Jewish community and one third would go to the DAI.

Though both parties decided to prolong SIVS, they decided in 2014 to divide the balance in accordance with the above-mentioned division. The part destined for the Jewish community has been paid for seventy-four percent to the Stichting Collectieve Maror-Gelden Nederland (COM) and for twenty-six percent to the Stichting Collectieve Marorgelden Israël (SCMI).

CJO and DAI also decided that from the amount to be divided they would each make a sum of € 10.000 available for the publication of a book about the Jewish war assets.

The part of the insurers remains with SIVS and is available for payments of unpaid policies.

2. Board of directors

At the end of 2014, the Board of Directors comprised:

- E.J. Numann, chairman
- P. Neleman, secretary
- J.M.F.X. van Veggel, treasurer

In 2014, the Board of Directors met six times (2013: six times). The Board decided to have simple applications judged by a delegate of the Board, outside of the Board Meeting. This procedure was not followed in 2014 (2013: not followed). The delegate can, if necessary, remit a case to the full Board.

This year, a total of 125 reports (2013: 152) relating to 302 policies (2013: 287) was discussed. In total, 280 decision letters (2013: 281) were sent.

3. Objections Committee

The Objections Committee comprised:

- H.L.J. Roelvink, chairman
- A.S. van Leeuwen
- F.N. Meijer
- M.A. Pach

W.Th.M. van der Velden is secretary of the Objections Committee and M.M.H. Timmermans, M.A. is substitute secretary.

The Objections Committee met once in 2014 (once in 2013).

In 2014, one appeal was lodged with the Objections Committee (one in 2013). This appeal resulted in a partial allocation. Two appeals were withdrawn before they were transferred to the Committee.

4. Secretariat

A secretariat was set up in 2000 to carry out the activities of the Sjoa Foundation.

In 2014, the secretariat comprised four staff members:

- H.T.C.J. (Henk) van der Well, project manager
- J.T.H.M. (Josée) Groenewegen, staff member
- J.M. (Matthijs) Bas, M.A., researcher
- M.M.H. (Matthijs) Timmermans, M.A., researcher

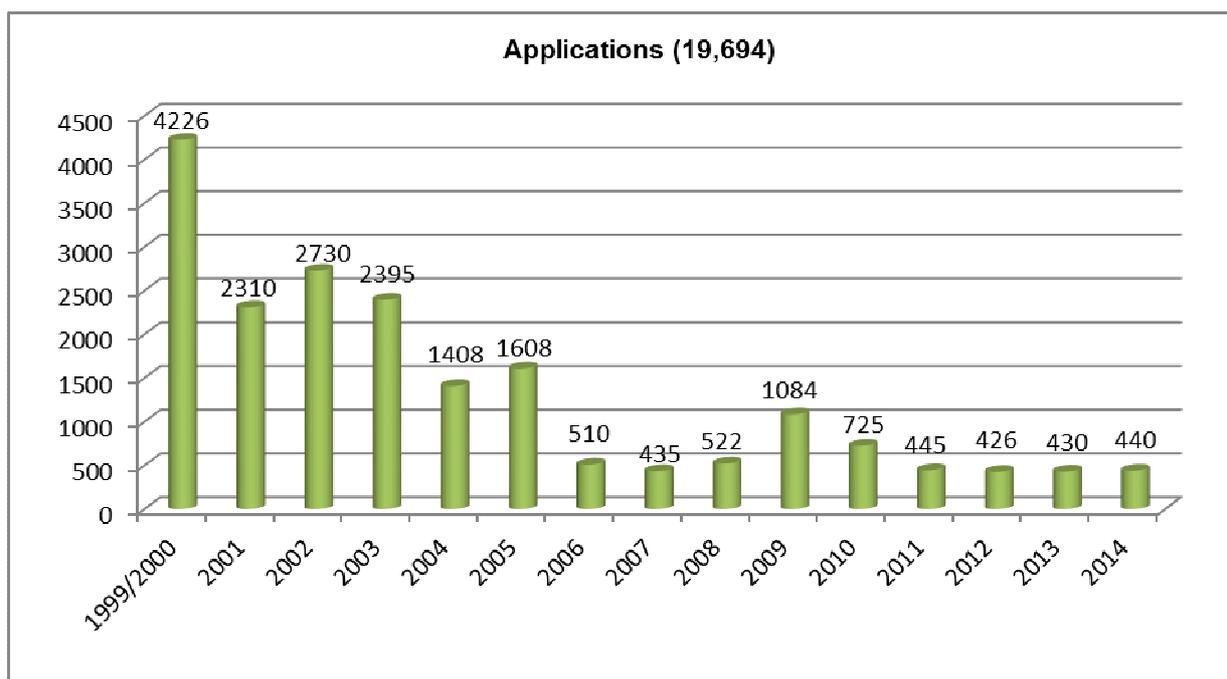

The number of staff in 2014 averaged 3.5 FTEs over the whole year (2013: 3.2 FTEs). Because of the temporary secondment of a researcher with the DAI, the effective staffing was 3.1 FTE.

The costs of the Foundation are borne by the members of the DAI who are historically involved in this matter.

5. Applications

In 2014, 440 (2013: 430) applications were submitted, an average of 37 (2013: 36) a month.

A total of 19,694 applications had been submitted by the end of 2014.

In this diagram, the numbers for the years 2004 and 2005 have been adjusted. At the end of 2004, there was still a backlog with regard to entering ICHEIC applications in the regular administration. Some 200 ICHEIC applications had still to be registered. This registration took place in early 2005.

ICHEIC application forms at times listed multiple names. Presuming that some 200 ICHEIC applications are equivalent to approximately 500 regular applications, it can be assumed that the number of applications for the year 2004 was 1,408 (instead of 882) and for 2005 1,608 (instead of 2,134).

The applications can be divided into three categories:

1. Applications that relate to a name on the Internet list with policies that have probably not been paid out.
2. Applications that mention an insurance company or a policy number.
3. Applications with no information about an insurance company.

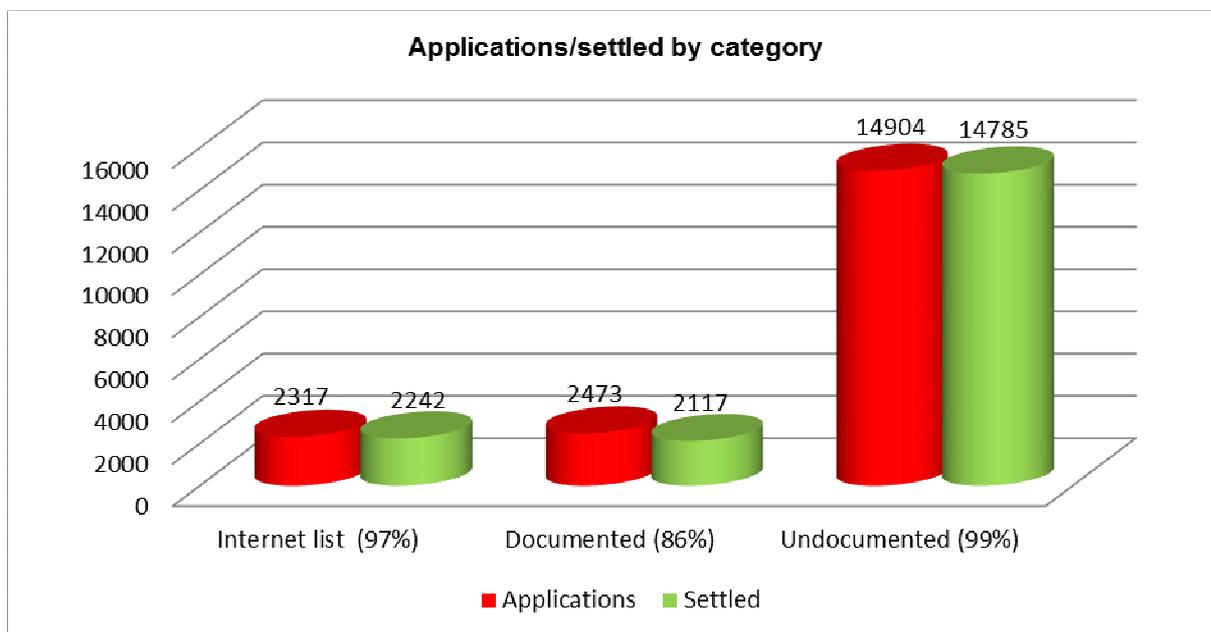

The applications received in 2011-2013 can be broken down as follows:

	<u>2014</u>	<u>2013</u>	<u>2012</u>	<u>Cumulative</u>
• Category 1:	68 (15%)	81 (19%)	81 (19%)	2.317 (12%)
• Category 2:	251 (57%)	196 (45.5%)	59 (14%)	2.473 (12%)
• Category 3:	121 (28%)	153 (35.5%)	286 (67%)	14.904 (76%)

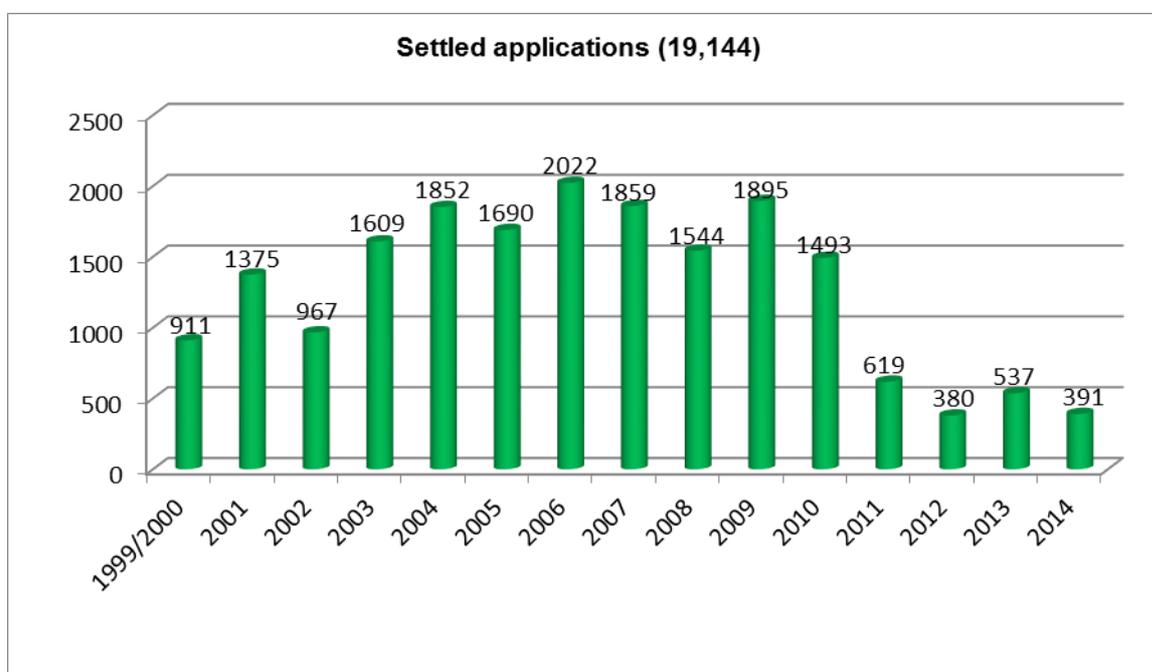

After publication in December 2004 of 1,369 new names on our internet list, the number of applications in category 1 increased considerably. These last years, the percentage has consistently been around 20%. The category 2 applications are mainly based on policies that were uncovered in our investigation. In the last few years, the percentage of undocumented applications has declined.

During 2013, the oldest applications were given priority. As a result of archival research, new information has been found about already settled applications. These were processed again. Many follow-up studies were undertaken in 2012.

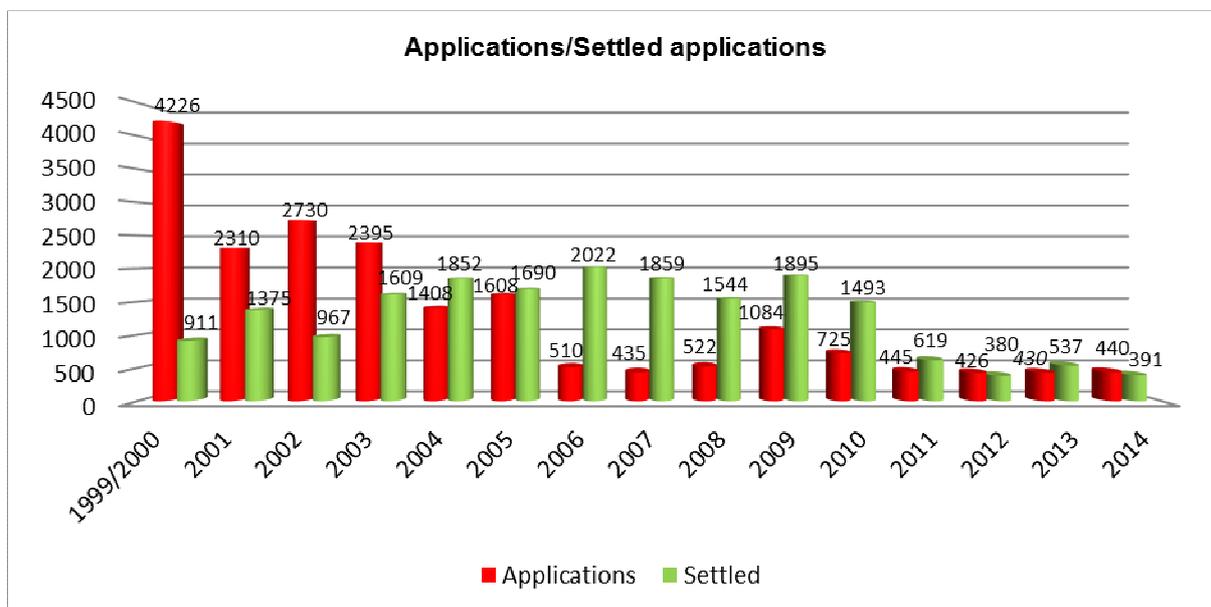

- In category 1, the percentage of settled applications in 2014 rose from 95% to 97%.
- In category 2, the percentage of settled applications in 2014 decreased from 91% to 86%.
- In category 3, the percentage of settled applications in 2014 remained 99%.

In 2014, 391 applications were settled (2013: 537), bringing the total of settled applications to 19,444 (2013: 18,753), or 97% (2013: 97%) of the total.

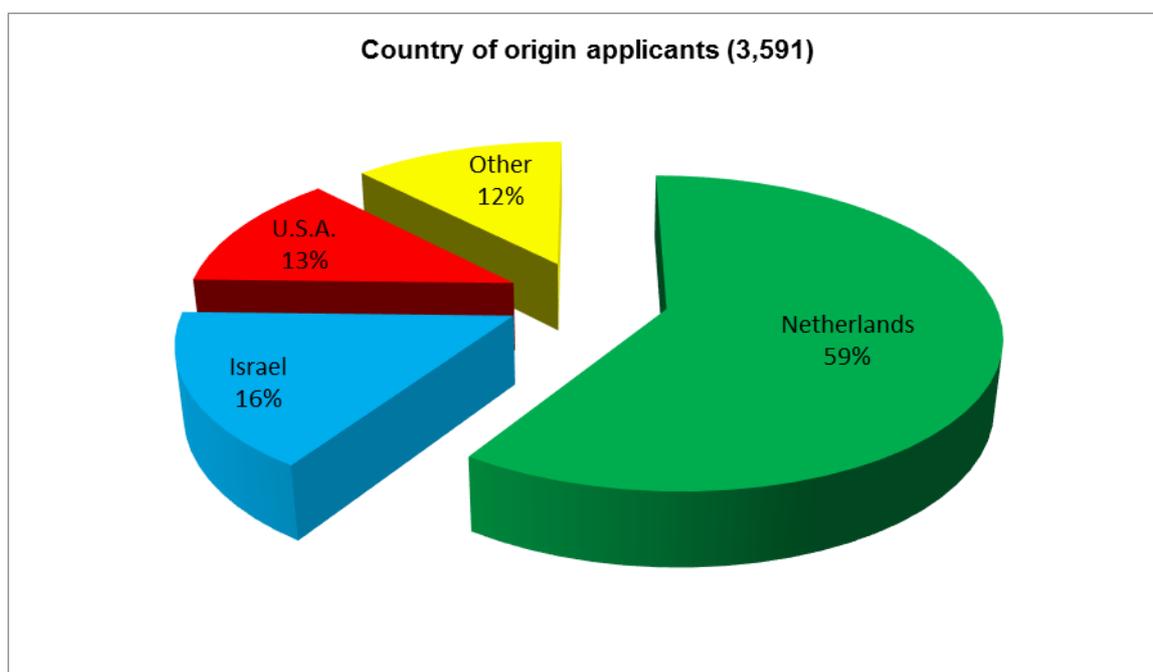

An overview of the number of applications received compared to the number of applications settled, after correction for the number of applications still pending from 2004 and 2005, is given below.

In 2014, two (2013: two) lists containing 121 (2013: 125) names were sent to the insurance companies for investigation.

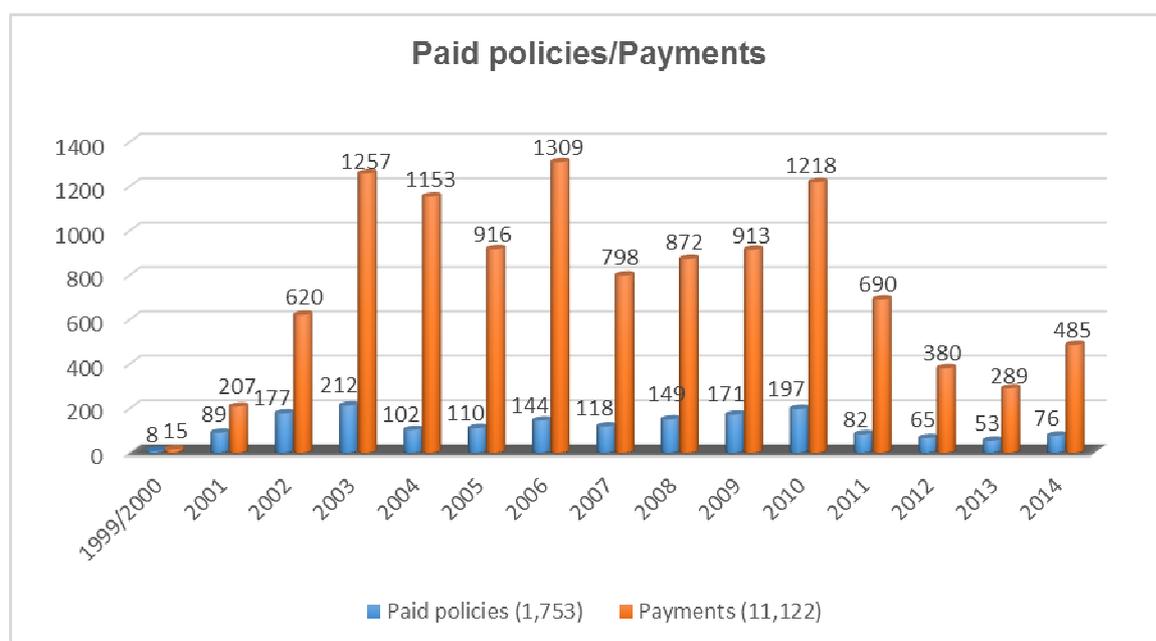

The 3,591 applicants (2013: 3,556) are mainly from the Netherlands, namely 59% (2013: 59%), but also 16% from Israel (2013: 16%) and 13% from the United States (2013: 13%). These percentages are fairly stable.

6. Payments

In 2014, a total of 76 (2013: 53) policies were paid out to 485 (2013: 289) rightful claimants in the amount of € 232,165 (2013: € 217,410).

At the end of 2014, a total of 1,753 policies had been paid out to 11.122 rightful claimants.

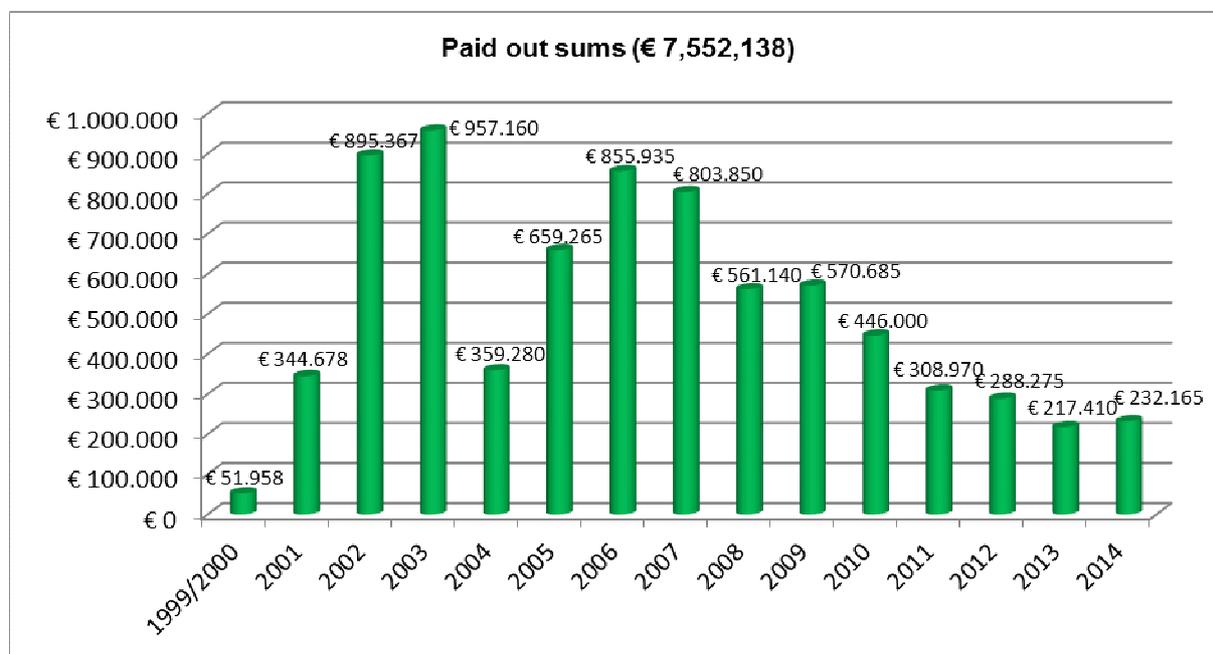

The amounts of the payments per claimant in 2013 were as follows:

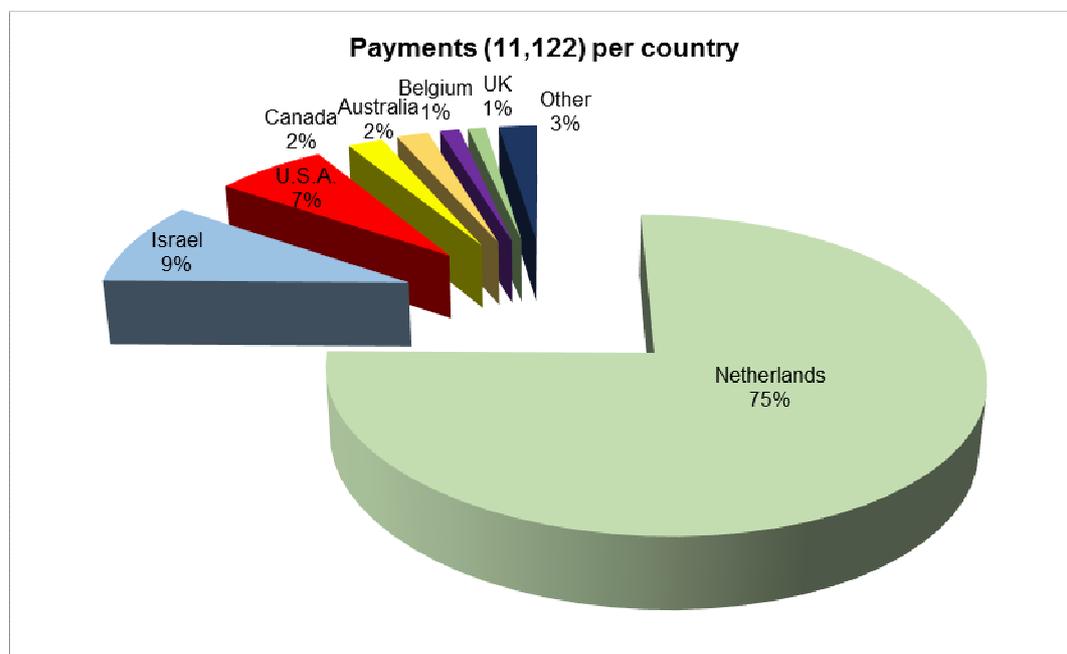

Payment amount	Number (%)
Under € 1,000.00	443 (91,4%)
€ 1,000.00 to € 5,000.00	33 (6,8%)
€ 5.000.00 to € 10,000.00	5 (1%)
€ 10,000.00 to €. 20,000.00	3 (0.6%)
€ 20,000.00 to € 30,000.00	0
Over € 30,000.00	1 (0.2%)

The highest payment amounted to € 30,895. The average payment amounted to € 479 (2013: € 752). Disregarding the highest payment, the average payment would be € 366. The decrease in the average payment amount is due to the fact that also in 2013 relatively extensive follow-up studies were conducted into heirs who were further removed, which resulted in smaller portions of inheritances.

At the end of 2014 a total amount of € 7,552,138 has been paid.

The payment per country is as follows:

The following pertains to the contribution of the current insurance companies in relation to the number of paid out policies and payments.

The seven main insurance companies and their most significant legal predecessors are:

AEGON

- *Algemeene Friesche Levensverzekering-Maatschappij*
- *Eerste Nederlandsche Verzekering-Maatschappij op het leven, tegen invaliditeit en ongelukken*
- *De Olveh van 1879*
- *N.V. Levensverzekering-Maatschappij Nillmij van 1859*

Delta Lloyd

- *Hollandsche Sociëteit van Levensverzekeringen N.V*
- *Amsterdamsche Maatschappij van levensverzekering*
- *Nationaal Spaarfonds*

ASR

- *Utrechtse Levensverzekering Maatschappij N.V*
- *Hollandsche Algemeene Verzekerings-Bank (HAV Bank)*
- *Gresham Life Assurance Society Ltd.*
- *Rotterdamsche Onderlinge Maatschappij van Levensverzekeringen*

Generali

- *De Nederlanden van 1870*
- *Phoenix*

De Goudse

- *De Oude Haagsche van 1836*
- *De Nederlandsche Spaarkas*

Nationale-Nederlanden (NN)

- *Nationale Levensverzekering-Bank*
- *De Nederlanden van 1845*
- *Rotterdamsche Verzekering Sociëteiten (RVS)*

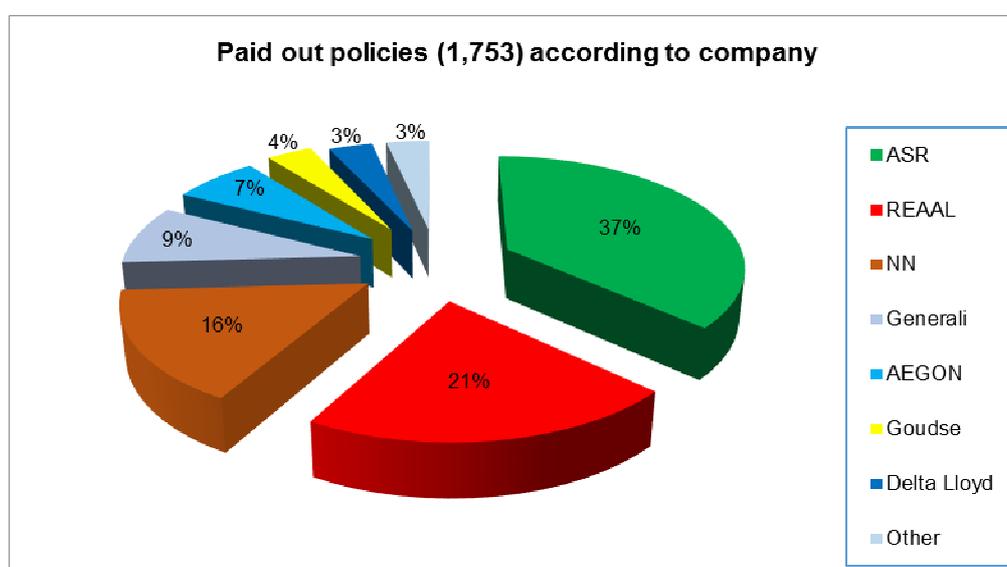

REAAL(VIVAT)

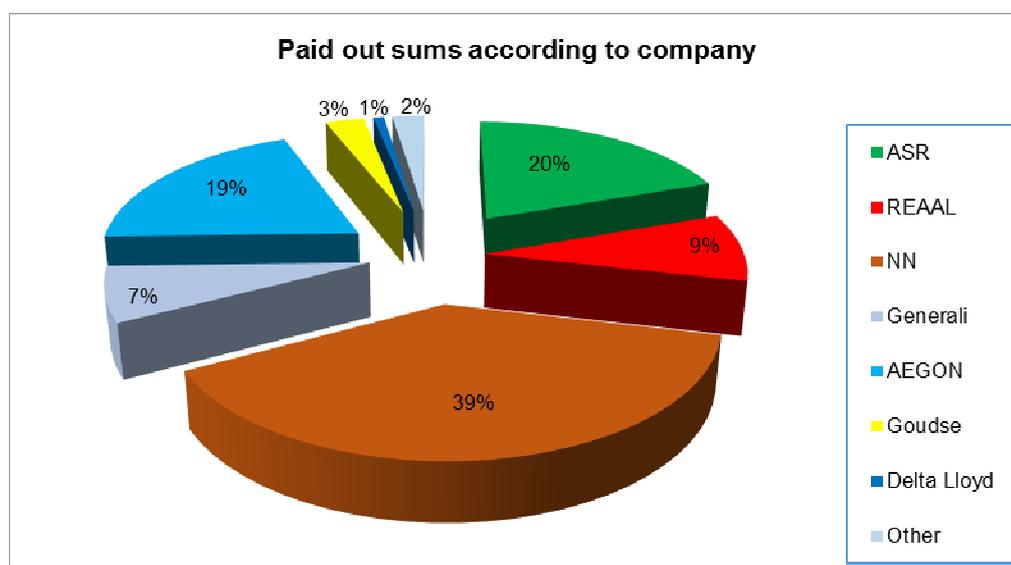

- *De Centrale Arbeiders Verzekerings- en Depositobank*
- *Noord-Hollandsche van 1891*
- *Zürich Leven*

REAAL, which was responsible for 600 'Centrale' policies on the Internet list published in 2000, had the largest percentage of paid out policies until 2008, but it saw this percentage decrease from 40% in 2005 to 21% in 2014 (2013: 22%).
ASR, which was responsible for some 950, mainly 'HAV Bank' policies on the Internet list published in 2004, saw its percentage increase from 16% in 2005 to 37% in 2014 (2013: 36%).

In relation to the amounts paid out, we see that *Nationale-Nederlanden* is responsible for the biggest share, namely 39% (2013: 38%). The same applies to AEGON with 19% (2013:19%). Their policies paid out were mainly larger endowment insurances. The paid out policies of ASR and REAAL mainly related to social insurances.

7. Archives

In May 2011, we had a meeting with the contacts of the insurance companies. Thirteen representatives attended, from eight companies. The subjects discussed included the preservation of archived material and knowledge.

It is important for war policy archives to be preserved, as specified in the agreement between CJO and the DAI. Another subject discussed was the concern that, in the future, the companies may not have sufficient knowledge of these policies.

The threat of lost knowledge of the war archives as a result of the departure of the Generali contact showed that this concern is justified. It had been agreed with Generali that they would transfer their *De Nederlanden van 1870* and *Phoenix* war archives to the Foundation. This transfer took place in September 2011. The archive is one of the most comprehensive, and very accessible.

In collaboration with *Nationale-Nederlanden*, we recorded and digitalised part of their policy archive, and made it accessible.

The Foundation has launched a project to make an inventory of the war policies and record all the relevant details, in collaboration with the companies, in order to preserve this knowledge. In relation to this project a number of visits to insurance companies took place in 2012-2014.

As a result of archival research, new information has been found about already settled applications, for instance in the archives of the *Noord-Hollandsche van 1891* (legal successor REAAL). As a result, a number of these applications had to be processed again.

8. ICHEIC/USA/International developments

The International Commission on Holocaust Era Insurance Claims (ICHEIC), also called the Eagleburger Commission after its chair, was established in 1998. This commission comprised insurance regulators from the United States, representatives from Israel and Jewish organizations, and insurance companies. DAI was also a member of ICHEIC.

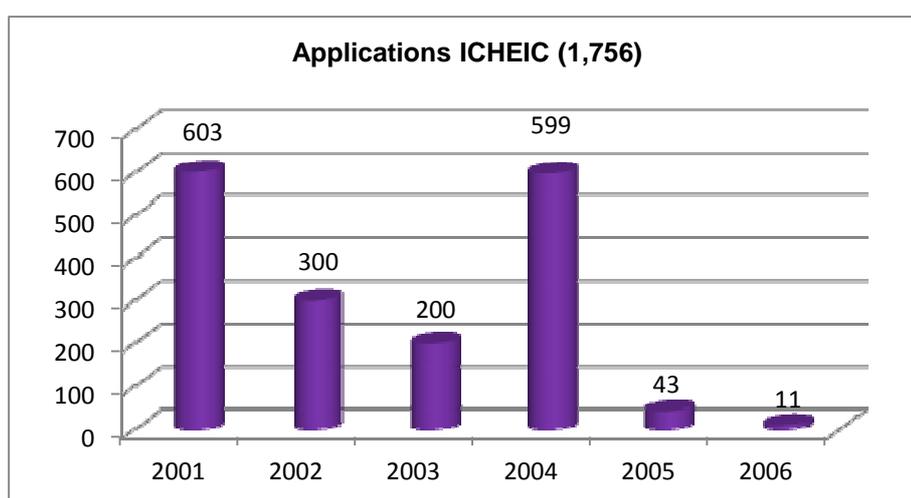

In 2001 the Sjoa Foundation and the ICHEIC reached agreement on how to handle applications submitted to the ICHEIC concerning Dutch insurance companies. The agreement was that our Foundation would handle all these claims and any payments would take place in accordance with the interest factors agreed to by the Dutch Association of Insurers and the Dutch Central Jewish Board.

The deadline for filing applications with the ICHEIC was December 31, 2003. Completed application forms could be submitted until the end of March 2004. Many took this opportunity and the Sjoa Foundation received almost 600 applications in the course of 2004.

Registering these applications was very labour intensive as the names and data provided were often wrong, misspelled and/or incomplete. In some cases the connection with the Netherlands was not clear. Each ICHEIC application could contain up to three different names (policyholder, insured and beneficiary). Before these applications were entered in the regular registration, separate files were made and personal details were checked and supplemented where necessary. Some 200 ICHEIC applications had still to be registered by the end of 2004. This backlog was eliminated in early 2005.

In 2006 the last eleven ICHEIC applications were received. These were the result of a comparison from our registration with that of ICHEIC, which revealed that these 11 applications were not in the Foundation's records.

By the end of 2006 a total of 1,756 ICHEIC applications had been received by the Sjoa Foundation, of which 95% were undocumented. At the end of 2007 these applications had all been settled.

ICHEIC met for the last time on March 20, 2007 in Washington and was dissolved. Only a small staff remained active for a few months to finalize the Commission's affairs.

In that same month a number of members of the House of Representatives of the American Congress, dissatisfied with the results of ICHEIC, introduced a new bill. This bill, called the 'Holocaust Insurance Accountability Act (H.R. 1746)', is intended to make it possible to start lawsuits in the USA against insurers. It also included an obligation for European insurance companies to publish information about all insurance policies that were in force between 1933 and 1945.

A delegation of DAI, together with the project manager of the Sjoa Foundation, visited Washington in February 2008 in order to discuss matters with members of staff of the most involved politicians and to inform them of the situation in the Netherlands.

This bill has been under consideration by a number of committees of the House of Representatives and the Senate, but did not lead to a final bill.

In November 2010, the American Supreme Court rejected a request by Holocaust victims to start lawsuits in American states against the Italian Generali Group. In response to this, a bill was introduced to the Senate in December 2010, entitled the

'Restoration of Legal Rights for Claimants under Holocaust-Era Insurance Policies Act of 2010' (S. 4033). This bill strongly resembles H.R. 1746 in terms of content. This bill also came to nothing, but in 2011, two other similar bills were introduced. 'The Holocaust Insurance Accountability Act' (H.R. 890) in the House of Representatives, and 'Restoration of Legal Rights for Claimants under Holocaust-Era Insurance Policies Act of 2011' (S. 466) in the Senate. In November 2001, there was a hearing before the 'House of Representatives Foreign Affairs Committee' concerning H.R. 890. We have written a letter to the Chair of this committee and sponsor of the bill, Ileana Ros-Lehtinen, about the handling of claims in the Netherlands. In June 2012 a hearing took place before the 'Senate Judiciary Committee' about bill S. 466. Both bills did not lead to concrete results in 2012. There were no new initiatives in 2013 and 2014.

In October 2011, Douglas Davidson, the Special Envoy for Holocaust Issues from the U.S. Department of Foreign Affairs, visited our country and spoke with representatives of the Central Jewish Board, the Association of Dutch Insurers, the Ministry of Finance and our Foundation. He was impressed with the way insurance claims are handled here. He informed us of the developments in the United States.

In June 2009, on the initiative of EU chair Czech Republic, the Holocaust Era Assets Conference took place in Prague. One of the objectives was to make an inventory of the results of the settlement of Jewish WWII Assets since 1998, when a similar conference was held in Washington DC. During the conference the US delegation leader, Stuart E. Eizenstat, made an urgent appeal on insurers world-wide to continue processing individual claims, even after the ICHEIC process had ended.
